OECD Gross Domestic Expenditure on R&D as % of GDP (36 member countries)

■ 2010 or latest available year

◆ 2000 or first available year

**A. Industrial R&D intensity,
2011 or latest available year**

B. Labour productivity, 2000–2011

IR&D intensity is business enterprise expenditure on R&D (BERD) as a share of gross domestic product (GDP).

Growth rates are annual averages.
